\$175.00 a week (no additional monthly fee)

Plus Registration, Book and Building Fees

Our Kindergarten program is open to children who are 5 years old by the first of September. This is the time to start your child in a quality educational program. Many parents wait until 4th or 5th grade before considering a private school. By then, it's often too late, students are too far behind and have acquired bad habits which are hard to overcome. We have very few openings for kindergarten students since our pre-school students are given first choice.
